Professional Experience

Reachify, Marketing Services

Apr 2024 – June 2024

Muzaffarpur, Bihar

Web Support Intern

- Supported the development of Reachify's company website to enhance customer engagement and user experience.
- Debugged React applications, optimizing performance and reducing response time for customer queries.
- Led a 4-member cross-functional team, enhancing CRM support and improving page load speed by 50% for better user experience.

Projects

ProTrack - A DSA Problem-Solving Tracker

- ProTrack, a real-time DSA problem tracker using ReactJS and Tailwind CSS, featuring a responsive UI. The platform includes an issue-tracking system for logging and resolving problem-solving difficulties efficiently. I implemented interactive progress tracking with analytics to help users monitor their solving patterns. Additionally, the design incorporates Framer Motion animations for a smooth and engaging user experience.

GoodFood - An Food Recipe Knowledge

- The Recipe Finder app, developed using ReactJS and Tailwind CSS, offers a seamless and responsive experience across all devices. Utilizing the MealDB API, it features an intuitive search function that allows users to find recipes by name or ingredient and explore various meal categories. Each recipe is presented with detailed ingredients, step-by-step instructions, and images, ensuring an engaging and user-friendly experience.
